Introducing the National Textile Association

In 2002 the Knitted Textile Association and the Northern Textile Association merged to become the National Textile Association (NTA), a non-profit trade organization representing over 200 textile manufacturers and industry suppliers with operations in the U.S., Canada, and Mexico.

NTA members process fiber, spin yarn, knit and weave fabric, and dye, print and otherwise finish fabrics in North America.

NTA's mission is to provide effective representation in Washington, DC for American fabric-forming companies and to promote the use of American-made fabrics for apparel, home furnishing, industrial, and other markets.

DAVID TRUMBULL, Member Services, *National Textile Association* will introduce this new organization to the members of the Textile Club and preview some of the activities that NTA plans for 2003.

The Textile Club welcomes its members to actively participate in the Textile Club Meetings and encourages them to bring guests.
